

Diesel 3 Ton Forklift With China Quanchai Qc490gp Engines Yanmar 4tnv94 Engines

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Goodsense
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: Bare packaging
- Delivery Time: 30-40work days
- Payment Terms: T/T

Product Specification

- Attribute: 3 Ton
- Place Of Origin: China
- Brand Name: Goodsense
- Name: Forklift
- Condition: New
- Energy Supply: Reference Introduction
- Advantage: Small Vibration And Noise
- Highlight: 4tnv94 diesel 3 ton forklift,
Qc490gp 3 ton diesel forklift,
3 ton diesel forklift for sale

Product Description

Diesel 3 Ton Forklift With China Quanchai Qc490gp Engines Yanmar 4tnv94 Engines

Building strong, responsible trucks, has allowed us to become a leading provider of forklift trucks in world. By adding high specification features, and proven technology, our aim is to increase productivity whilst lowering equipment lifetime costs. Our newest S series of internal combustion (IC) products (especially diesel 3 ton forklift) are the cornerstone of our business and along with a whole host of safety features.

Diesel forklift trucks are one of the strongest workhorses in the materials handling industry, being suited to a wide range of unit loads and designed to bear the rigours of outdoor work.

Powered by diesel, diesel counterbalance forklifts like GOODSENSE forklift S series and G series perform very well in tough circumstances like those that are wet or dirty. Characteristic applications include loading and unloading goods vehicles, container stuffing, container unstuffing, container break bulk, container consolidation and moving goods into or out of outside storage areas, as well as transferring items from one place to another place – for instance between two different workshops.

Unlike some other forklifts, diesel counterbalance forklifts come in a very wide range of sizes and lift capacities, which makes them capable of carrying everything from a small pallet of bulk materials to individual components weighing several tonnes. GOODSENSE diesel forklift, for example, offers maximum lift capacities from 1.5 tonnes (FD15) up to a weighty 48 tonnes (FD480). Maximum lift heights are typically between 3m and 6m, depending on the kind of mast fitted, but while this can be useful in applications where trucks truly need to work at height – for example in outdoor racking – the emphasis in most applications will be on horizontal, rather than vertical movement.

Diesel 3 ton Forklift can use a lot of engines

Such as

China Quanchai QC490GP

Number of cylinder: four

Displacement: 2670cc

Rated output: 36.80KW

R.P.M.: 2650

Rated torque: 153N.M.

R.P.M.: 1960

Bore*Stroke: 90*105

Xinchai A498BT1-34

Number of cylinder: four

Displacement: 3168cc

Rated output: 36.80KW

R.P.M.: 2400

Rated torque: 186N.M.

R.P.M.: 1700

Bore*Stroke: 98*105

Yanmar 4TNV94
 Number of cylinder: four
 Displacement: 3054cc
 Rated output: 43KW
 R.P.M.: 2500
 Rated torque: 205N.M.
 R.P.M.: 1000
 Bore*Stroke: 94*110

Yanmar 4TNE98
 Number of cylinder: four
 Displacement: 3319cc
 Rated output: 44.3KW
 R.P.M.: 2300
 Rated torque: 206N.M.
 R.P.M.: 1700
 Bore*Stroke: 98*110
